

Chains

Verse 1

Hid amongst shadows
Lost in the mess
Light split the darkness
And found my regrets

Verse 2

Trapped by my shackles
Holding on to my fears
Hope made it's way in
Mercy came near

Chorus

Oh my Father's never left me
His faithfulness stands strong
Though there's labor in the waiting
I believe these chains will fall
Oh there's freedom in the distance
In these promises I trust
Cause my Savior's rolled the stone away,
And these chains don't weigh that much

Verse 3

You saw my weakness
You shouldered my weight
In perfect condition
You stand in my place

Bridge

I'll keep on praying
I'll keep on trusting
I know You're working
And Your grace is constant
As these chains keep breaking
I'll keep trusting You

Bridge 2

In every trial
In every season
Your cross is final
So I'm still believing
As these chains keep breaking
I'll keep trusting You
